SPIDER LIFTS
AT A HIGHER LEVEL
FOR 40 YEARS

FALCON 125XL *Vario*

The ultimate compact platform

Compact design, flexibility, minimum weight, maximum reach and safety are qualities which users of the Falcon Spider Atrium Lift series appreciate in their daily work.

The Falcon Spider Atrium Crawler Lift FALCON 125XL Vario is an original Falcon Spider Lift with market leading features.

The Falcon Spider Atrium Crawler Lift FALCON 125XL vario has a 125 ft working height, and is designed with height adjustable crawlers and enhanced basket load of up to 990 lb.

The Falcon Spider Atrium Lift was originally invented in the 1970's, and developed ever since. The Falcon Spider Atrium Crawler Lifts FALCON 125XL Vario is very applicable in matters of:

- Facility management
- Atrium access
- Narrow access
- GSM telecommunications and electrical network upgrades
- Best quality & safety

- Easy transport & propelling
- Low weight & ground pressure
- Flexible outrigger setting
- Limited setup space
- Power - Bi-energy Hybrid

The Falcon Spider Atrium Crawler Lift FALCON 125XL Vario is capable of passing through a door opening a mere 4'8" wide and 6'5" high. Further details on the Falcon Spider Atrium Lift FALCON 125XL Vario is mentioned on the following pages.

New features such as XL-basket size and enhanced basket load of up to 990 lb, automatic outrigger positioning, steering of outrigger and chassis from the basket, turns The Falcon 125XL Vario into a product category matching the demand of today in regards to speed, usability and safety.

The variable crawler version of the Falcon Spider Atrium Lift series is recognised by its impressive driving properties and userfriendliness.
